

It's Gold Number 64 for Hillier!

Hillier wins a record-breaking 64th consecutive Chelsea Gold Medal with 'Gardening for the Time of Your Life'

Headed by Managing Director and Chelsea designer, Andrew McIndoe, this Hillier staging team has secured Hillier's 64th consecutive Gold Medal with arguably one of the best ever Hillier exhibits.

Hillier's Gold-medal winning Garden takes visitors on a journey through the life of the British gardener from starter home and garden at **First Base** to the final resting place **Pushing up the Daisies** in a series of six interlinking gardens. 'Gardening for the Time of Your Life' leads the visitor through the practicalities of **Surviving Suburbia** to educational but attractive ideas in **Coping with Kids** and then on to the sheer indulgence of rich, deep borders in **Grand Designs** before **Losing the Plot**, as our gardener downsizes and creates a beautiful, but lower maintenance planting scheme.

So here they are - the six stunning stages of the Gardener's life in order plus a great shot of HRH Princess Anne yesterday with Andrew McIndoe in the Grand Designs Garden:
