World Record 65 Chelsea Golds

GREAT BRITISH TREES

Great British Trees come to Chelsea

For the first time, Hillier will be exhibiting their **Great British Trees** on a trade stand at the RHS Chelsea Flower Show this year. As well as the usual “must see” Hillier garden within the Great Pavilion, Hillier are displaying their award winning trees outside - next to Diarmuid Gavin.

Largest British Trees Ever at Chelsea

These massive trees showcase the size of mature British trees available to people requiring instant landscapes. Hillier grow their trees on their nurseries in Hampshire - over 750,000 trees in production on 600 acres of land.

Potted Giants – Ready to Plant

Hillier have prepared their trees over decades and have seen the demand for larger trees rocket. Row upon row of 25 year old trees (and older), like those on the exhibit, are available to peruse and choose. Garden Designers, Country Estates and City Gardens looking for maturity and that “wow” factor will find all they need at Hillier.

Hillier offer their trees on a supply basis, or supply and planted basis - whatever is more suitable to the client.

Building Blocks for Instant Design

Trees within the range include large specimen trees, natural shaped trees, formal shaped trees, avenue and parkland trees. Designers and those creating gardens and landscapes enjoy a palette of ready-made structural plants.

Turn Chelsea Dream into Reality

When you see mature trees at Chelsea, you may think it impossible to replicate. Not so! You can now buy British specimen trees from the UK’s no.1 nursery.

Come and visit us on the stand -
Rock Garden Bank 7 (RGB7).
